

up to 300 g/m³ **Desert**

Submersible pump 0.75Hp 5 Impeller

Caprari Desert Line

The right choice for high concentrations of solids and sand up to 300 g/cbm

The new 4" and 6" submersible pumps for small and medium-size wells are Caprari's answer to the need for high performance plus long life in extremely heavy duty conditions. Compact and stainless, they combine power and reliability thanks to their pioneering type of construction and the quality of the materials.

- Components designed:
Bearings protected against the entrance of sand
- Bushings in sandproof material
- Impeller in Techno-polymer with additional reinforcing
- Defender protects both pump and electric motor from corrosion
- Performance in accordance with ISO9906 Standard grade 3B
- Machines conform to 2009/125/EC Directive (EgoDesign-ErP)

Code: E4XED35/5+MC4075

Brand: Caprari (100% Made in Italy)

Description

Power : 0.75 Hp (562.5 Watts) 1x230 VAC

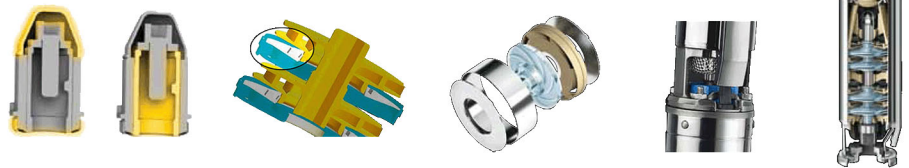

Max. : 30 m.

Max. Flow rate : 7,200 L/hr

Voltage : 230 V

Current : 1.5 A

Frequency : 50 Hz
